

## SECURITY

Taal-Net hostel prides itself in the tight security you will meet at first sight when you reach the place. You are securely welcomed by our trained security personnel. This is for the security of our learners, staff and visitors.

## ART AND CULTURE

We know how difficult it might be to interact with students from different cultures. Therefore, we introduced activities to help our learners appreciate different cultures. Activities like debating, drama, music, public speaking, the list goes on. We intentionally promote cultural tolerance and diversity.

## FITNESS AND SPORTS

This forms a core part of our education system. All students are encouraged to participate in at least one sporting activity. The sports help to instil some life skills like discipline, determination and teamwork. Achievers are recognised and appreciated. Sporting activities offered include soccer, netball, athletics, basketball, volleyball, cricket and tennis.
